PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech, 2026) specializing in Machine Learning and Generative AI, with hands-on experience building AI agents, RAG pipelines, and ensemble ML models using Python, scikit-learn, TensorFlow, and LangGraph. Seeking an AI/ML engineering role to design and ship production-grade ML and agentic AI systems that turn complex workflows into reliable, measurable outcomes.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, TypeScript, SQL

Machine Learning: Supervised Learning, Classification, Regression, Ensemble Methods (XGBoost, LightGBM, CatBoost, Random Forest), Feature Engineering, Model Evaluation, Model Deployment

Generative AI & LLMs: AI Agents, Multi-Agent Orchestration, MCP Server, RAG, Vector Embeddings, Semantic Search, Tool Calling, Prompt Engineering, LLM Integration (Claude, Gemini, LLaMA)

Frameworks & Libraries: PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, LangGraph, LangChain, FastAPI, Flask

MLOps, Data & Cloud: NLP, Statistical Analysis, EDA, MLOps, Data Pipelines, CI/CD, Docker, Kubernetes, AWS (S3, EC2), PostgreSQL

Backend, Security & Tools: REST APIs, API development, Microservices, OAuth 2.1, SPIFFE, JWT, MFA, Git, GitHub, FAISS, Power BI

WORK EXPERIENCE

Technical Trainee (AI/ML) | Kloud Technology Works Pvt. Ltd. (Kloudone)

March 2026 – Present

AuthNull – Identity-security platform building push-based MFA, AI agents, microservices, and secure backend services.

- Designed AI agent workflows and MCP server integrations using Claude AI to automate business and engineering tasks.
- Built secure MFA backend microservices using OAuth 2.1, mTLS, SPIFFE, Active Directory, and PostgreSQL, serving 3K+ requests/day while contributing to microservice migration, consolidation, and authentication-platform modernization.
- Integrated LLM pipelines that cut response latency 25% while improving task accuracy.

PROJECTS

HelixOS — AI Multi-Agent Business Operating System | [GitHub](#)

June 2026

Python, FastAPI, LangGraph, Gemini, Next.js, Supabase, PostgreSQL

- Built a full-stack multi-agent AI platform where 8 specialist agents autonomously plan, execute, evaluate, and learn across continuous business-growth cycles..
- Orchestrated LangGraph agent handoffs with human-in-the-loop approval and full observability.
- Implemented a hybrid RAG architecture with vector embeddings, semantic retrieval, long-term agent memory, and tool-using agents across 4 tracked KPIs on a free-tier stack (Vercel, Supabase, Gemini).

Mergent AI — Multi-Agent Microservices Migration Platform | [GitHub](#)

May 2026

Python, LangGraph, FastAPI, GitHub API, RAG, Embeddings, Vector Database, LLM

- Built an AI multi-agent platform automating microservice migration analysis (weeks to minutes).
- Built repository-aware RAG pipelines generating embeddings from source code, APIs, and docs for semantic search and context-grounded migration across Spring Boot, Node.js, Python, and Go.
- Architected a 7-agent pipeline with streamed live progress and schema-validated structured output.
- Added live GitHub ingestion, before/after architecture diagrams, PDF reports, and Jira task export.

SafeTrace — AI-Powered URL Threat Detection Platform | [GitHub](#)

April 2026

Python, FastAPI, Scikit-Learn, XGBoost, LightGBM, CatBoost, Random Forest, Playwright, Machine Learning

- Built an AI-powered URL threat detection platform achieving 95%+ accuracy ($F1 > 0.95$) using a stacking ensemble of XGBoost, LightGBM, CatBoost, and Random Forest models with SHAP-based explainability.
- Engineered 20+ threat features from URL heuristics, WHOIS, threat feeds, and Playwright analysis.
- Built a FastAPI backend with real-time risk scoring and explainable verdicts in under 5 seconds.

EDUCATION

Greater Noida Institute of Technology, Greater Noida

2022 – 2026

Bachelor of Technology (B.Tech), Computer Science and Engineering

CERTIFICATIONS

E&ICT Academy, IIT Kanpur — Data Structures & Algorithms | [Certificate](#)

July 2025

E&ICT Academy, IIT Kanpur — Data Science with Python | [Certificate](#)

August 2025

IBM — Artificial Intelligence Fundamentals | [Certificate](#)

October 2025

Deloitte — Data Analytics Job Simulation (Forage) | [Certificate](#)

January 2026

JPMorgan Chase & Co. — Software Engineering Simulation (Forage) | [Certificate](#)

January 2026
